PRODUCT DESCRIPTIONS

THE FUSE LINEAR CEILING LIGHT

- **Material:** Milled cast aluminium and tempered glass
- **Finish Options:** Brushed or polished aluminium
- **Dimensions:** 893mm length, 75mm diameter, adjustable drop length
- **Price:** £395.00
- **Product Link** loomlightdesign.com/collections/fuse-collection/products/linear-ceiling-light-edison-fuse
- **Description:** Redefine your space with an industrial style linear ceiling light from the inaugural Fuse Collection by Temper. A testament to British design and manufacture. This industrial style statement piece is inspired by mid 20th-century industrial lighting and contemporary minimalist aesthetics. Fitted with two Edison LED filament tubes which transforms this long ceiling light into a feature. This modern light is more than a lighting solution — it's an investment that will last a lifetime and pass on to the next generation. Perfect for those who understand that quality transcends trends. Elevate your interior and illuminate with intention.

THE FUSE CORNER LAMP

- **Material:** Milled cast aluminium and tempered glass
- **Finish Options:** Brushed or polished aluminium
- **Dimensions:** 893mm length, 75mm diameter
- **Price:** £395.00
- **Product Link:** loomlightdesign.com/collections/fuse-collection/products/corner-lamp-fuse-edison
- **Description:** Discover a lighting solution that doesn't just illuminate but reimagines your space. Our industrial style floor lamp is designed to lean gracefully against walls and breath life and light into forgotten corners. More than just a light fixture, this is a shape shifter. By strategically positioning against walls, this linear lamp creates an instant sense of depth and openness. Those tight, dim corners are transformed into inviting, softly lit spaces that feel larger, more expansive, and infinitely more welcoming. Manufactured from locally sourced solid cast aluminium and premium glass, the tube floor lamp's lean design is both purposeful and elegant. Its industrial-inspired silhouette allows it to nestle seamlessly into any architectural context—whether it's tucking into a narrow hallway, brightening a reading nook, or adding ambient light to a bedroom. The two Edison filament LED tubes cast a warm, diffused glow and come included with the fixture.

THE FUSE LONG WALL LIGHT

- **Material:** Milled cast aluminium and tempered glass
- **Finish Options:** Brushed, polished
- **Dimensions:** 893mm length, 75mm diameter, 110mm depth from wall
- **Price:** £395.00

TEMPER

- **Product Link:** loomlightdesign.com/collections/fuse-collection/products/long-wall-light-fuse
 - **Description:** From the inaugural Fuse Collection by Temper we present the long wall light for those that appreciate understated sophistication – where every line, every material speaks of quiet confidence and industrial style minimalism. Constructed from precision-milled cast aluminium with a seamlessly integrated crystal clear glass tube that allows light to breathe, this long wall lamp embodies architectural simplicity. Its wall-mounted profile creates a striking visual element that transforms any space—whether it’s a contemporary living room, a sleek office, or an industrial style kitchen. Fitted with Edison filament LED tubes which delivers soft, considered illumination that provides a stunning visual effect paying homage to heritage lighting while embracing modern minimalist aesthetics. These long wall lights are for those who embrace streamlined industrial style lighting which fuse both form and function.
